Note: Some locations are not eligible for exemptions or general permits, see ch. NR 1.

Note: The rules specifying standards for exempted activities are chs. NR 1, 320, 323, 326, 328, 329 and 345.

(2) For those activities which are not allowed in locations where there are public rights features as defined in s. NR 1.06, a person may only undertake an exempt activity after they have evaluated the site

and determined that the structure or activity is not in the location of a public rights feature described in s. NR 1.06(4).

(3) Pursuant to ss. 30.12(2m), 30.123(6m), and 30.20(1m), Stats., the department may require a person engaged in or proposing an activity for which an exemption is available to obtain a general or individual permit.

NR 310.05 Exemption determination requests. (1) Any person may request a determination from the department under s. 30.12(2r), 30.123(6r) or 30.20(1r), Stats., as to whether an activity or location is exempt under s. 30.12(1g), 30.123(6)(d) or (e) or 30.20(1g), Stats.

(2) A person who seeks a department determination as to whether an activity or location is eligible for an exemption under sub. (1) shall submit a written request to the department. The request shall be submitted on a form provided by the department, by delivery methods specified by the department, and shall provide all the information requested on the form.

(3) If the person who requests the determination is the person proposing the activity, the request shall be submitted not less than 20 days before commencing the activity to allow time for mailing between the applicant and department.

Note: Federal or local permits may be required. Applicants are responsible for obtaining all necessary federal or local permits or approvals for their activity.

NR 310.06 Department procedures for processing exemption determination requests. (1) The department shall develop and maintain a form for requesting an exemption determination under s. NR 310.05, and provide a copy of the form to any person on request.

Note: Form 3500-107, "Chapter 30 Exemption Determination Request" is available at department service centers and on the department's website at www.dnr.wi.gov under the topic "Waterway and Wetland Permits."

(2) Upon receipt of an exemption determination request under s. NR 310.05, the department shall determine whether an activity or location qualifies for an exemption under s. 30.12(1g), 30.123(6)(d) or (e) or 30.20(1g), Stats., and the rules promulgated under the applicable statute.

(3) The date of receipt of an exemption determination request shall be the date the form is received at the department office specified on the form.

(4) If the exemption determination request does not meet all the requirements of s. NR 310.05(2), it shall be deemed incomplete. The department shall notify the requester that the activity is not exempt and shall describe the information that a new exemption determination request must include in order for the information to be complete.

(5) Where an exemption determination request is filed for an activity for which an exemption is not available under s. 30.12(1g), 30.123(6)(d) or (e) or 30.20(1g), Stats., the department shall notify the requester within 15 days of receipt that the activity is not eligible for an exemption, and of any provisions of ch. 30, Stats., that apply to the activity.

(1) The department shall determine whether an activity is exempt under s. 30.12(1g), 30.123(6)(d) or (e) or 30.20(1g), Stats., based on whether it complies with this chapter, all standards in the statute that create the specific exemption and all standards in any rules promulgated under that statute.

(2) The department may inspect activity sites as necessary to determine whether the activity qualifies for an exemption, or whether a general or individual permit is required.

(3) In determining whether an activity is eligible for an exemption, the department may rely on information and data gathered by the department in a prior inspection of the activity site or the waterbody adjacent to the activity site. The department is not required to make a new site inspection in response to receipt of an exemption determination request form.

(4) Where a person who owns the property where an activity is or will be located files an exemption determination request, the department shall determine if the activity is exempt under sub. (1), notify the requester in writing within 15 days if it determines that an activity is not exempt, and inform the requester that a general or individual permit is required for the activity. The department also may notify a requester if it determines that an activity is exempt.

(5) Where a person who does not own the property where an activity is or will be located files an exemption determination request, the department shall determine if the activity is exempt under sub. (1) and notify the requester in writing of its determination. If the activity is not exempt, the department shall inform the requester that a general or individual permit is required for the activity. If the department seeks permission from the landowner to access the property, the department shall notify the landowner of both the exemption determination request and its exemption determination. If the department is not able to obtain permission to access the property to inspect the site, and therefore unable to make a determination as to whether the activity is exempt, the department shall inform the requester of this fact. The department also may notify a requester if it determines that an activity is exempt.

(6) The department has provided notice of its exemption determination on the date the department mails the written determination to the person who requested the determination.

NR 310.08 Permits in lieu of exemptions. In making a determination under s. 30.12(2m), 30.123(6m) or 30.20(1m), Stats., that a general permit or individual permit is required in lieu of an exemption, the department may rely on information and data gathered by the department in a prior inspection of the activity site or waterbody adjacent to the activity site. The department is not required to make a new site inspection in response to receipt of an exemption determination request form.

In its notification, the department will inform the applicant of the reason for ineligibility, including where applicable a description of public rights features at the site, or of conditions specific to the site that require restrictions different than the general permit conditions in order to prevent significant adverse impacts to public rights and interests, environmental pollution as defined in s. 299.01(4), Stats., or material injury to the riparian rights of any riparian owner.
